SUBSTANTIAL INCIDENTS:

June 8, 2014 at 1230 hours — General Alarm 23W786 Hobson Road, Naperville

Units were originally dispatched to the area of Hobson and Lynn for a reported house fire by a passerby. Fire was located at the address above after a brief search of the area. The residence was set approximately 400 feet off the road and accessed through a very narrow gated driveway. Units found a working basement fire and made an exterior attack through a window well before moving interior, fire was contained to the basement. The incident was escalated to a Box Alarm due to the lack of hydrants in the area and the length of the hose lay. Water tenders were not on the initial dispatch because the original location came in as an area with hydrants. Units deployed approximately 1500 feet of 5" supply line down Hobson road to the closest hydrant. Fire was extinguished, salvage and overhaul, and the investigation were all completed. Very large dollar loss due to the value of the home and extent of smoke/heat damage to the rest home.
