SAFETY NOTICE:

In a time of emergency you would expect to receive the best service possible. The Lisle Woodridge Fire District is ready to provide that service. We do however need your help. This is merely a courtesy notice to inform you that there may be a problem identifying your address in an emergency.

According to the Lisle-Woodridge Fire Prevention Code:

505.1 - Address numbers. *New and existing buildings shall have approved address numbers, building numbers or approved building identification placed in a position that is plainly legible and visible from the street or road fronting the property. These numbers shall contrast with their background. Address numbers shall be Arabic numerals or alphabet letters. Numbers shall be a minimum of 4 inches high with a minimum stroke width of 0.5 inch.*

Fire companies doing this courtesy check have found that your residence does not meet the minimum code requirements. Please correct this situation so that essential Fire, Emergency Medical and Police services will not be delayed in finding your home in an emergency.

We hope that you will never need our emergency services, but rest assured that we will be ready if you do. With your help we can all have a safer community.

If you have any questions regarding this notice or need our assistance complying with it, please feel free to contact the Fire Prevention Bureau at 630-353-3030 or www.LWFD.org.
