- 4200 Commerce #102 — Interior remodel
- 4820 Venture — Mezzanine demolition
- 2300 Cabot, 5th Floor — Interior remodel

Points of Interest

Jaeger Hall at Benedictine University (right) has this unusual assortment of fire department connections and controls. The standard FDC with the double female connections is how we supply water to the system. The WYE, with two male connections, is how the system would supply hose lines. In the middle is a control valve which opens the WYE to allow water into the connected hose lines.

Code Enforcement Activities

<i>Activity</i>	<i>Current</i>	<i>YTD</i>
Inspections (Existing)	250	872
Inspections (New)	27	82
Plan Reviews	38	111
