2300 Cabot #390 and 2nd Floor — Interior renovations  
819 Ogden — Interior renovations  
1945 Ohio — Fire alarm replacement  
4712 Main — Construct rear staircase

## *Points of Interest*

Pictured to the right is an Inspector's test and drain with a pressure regulating device built in. The valve has three positions: Off, Test, and Drain. The device also regulates pressure to no more than 180 psi. If this pressure is exceeded, the excess is drained off through the rubber hose. To do a Hydrostatic test with this device present the hose must be capped off so the test pressure will arrive at 200 psi.

## *Code Enforcement Activities*

<i>Activities</i>	<i>Current</i>	<i>YTD</i>
Inspections (Existing)	270	430
Inspections (New)	20	42
Plan Reviews	20	42
