Fire Service Associations

Points of Interest

AT&T Data Center has installed a new fire alarm system (the annunciator is pictured above, right). At the South entrance to the facility the touch screen television is the fire department interface with the system. It will locate any alarm or trouble conditions and will show the location on both large and small scale maps.

Underwriters Laboratories (UL) is an independent, not-for-profit product safety testing and certification organization. They advance safety science through research and investigation. The primary mission of the company is to support the production of physically and environmentally safe products to prevent loss of life and property.
