Points of Interest

Fire apparatus access roads shall extend to within 150 feet of all portions of a building and are required to be at least 20 feet wide (unobstructed) and provide at least 13.5 feet of overhead clearance. The surface shall be able to support the apparatus weight and be drivable in all-weather conditions. The turning radius is designed according to LWFD vehicles and a turn-around is required if the access road is more than 150 feet long.
