Points of Interest

The Lisle Woodridge Fire District is working with the Village of Lisle to adopt the 2015 International Residential Code with no amendments to the home fire sprinkler requirement. This would require all new homes in Lisle to have fire sprinklers installed. Having fire sprinklers and smoke alarms in your home reduces your chance of dying in a home fire by 80%. In approximately 90% of fires the fire is controlled by a single fire sprinkler head and the amount of property damage is 70% less than when no sprinklers are present. This has been a requirement in model codes since 2009 and keeping this requirement is the right thing to do for the community.
