SCBA Competency and Maze

The SCBA competency and maze focuses on the basics of us, function and the basics of maneuvering through tight spaces shifting the SCBA and low profiling their bodies to get through tight obstacles.

Elevator Operations, Lock out – Tag out

This was a review of elevator types, emergency operations and overrides to remove victims of a stuck or compromised elevator. This training included classroom presentation and hands operations of the elevator. In the process of safe operations shutting down the power is a mandatory function along with securing the energy sources.

Rapid Intervention Crew scenarios

Crews were given a scenario of a firefighter that had sent a "MAYDAY" call. Companies entered the area and searched for the victim, forcing doors and tending to the injured firefighter with the use of a Rapid Intervention Crew Air Supply.

❖ MABAS 16 Training

*Under Water Rescue and Recovery Team-URRT
The training concentrated on the techniques of surface ice rescue and related equipment.*
